Our Spring Beauty Countdown

Get yourself Camera Ready!

Camera Ready Foundation Base minimizes the appearance of fine lines, smoothes skin texture, and keeps foundation in place all day. This summertime sensation can also be worn alone, and reduces appearance of enlarged pores. The matte appearance lasts all day and leaves skin feeling silky smooth. \$42 Get the look at www.ShopDrWright.com.

Do you wish you had longer, darker, fuller lashes?

Super-long eyelashes can distract from crow's feet, fine lines and wrinkles around the eyes. So why wait? Get Latisse - available at your doctor's office, as the only FDA approved product proven to grow your lashes!

Permanent Make-Up can enhance your Look!

Imagine waking up every day with makeup perfectly applied. Envision...always looking your best, no matter what! Permanent makeup can enhance your life!

Say "Good-Bye" to Cellulite!

Swimsuit season can be tough for women and men who are not happy with their body shape or appearance. Diet and exercise don't always get rid of cellulite, saddlebags, or flabby inner thighs. VelaSHAPE is a revolutionary treatment proven to reduce and even eliminate cellulite. It is the only, truly effective, non-surgical, non-invasive treatment that smoothes out cellulite while tightening your skin and contouring your body.

Shape your Brows

A good brow shaping can rejuvenate your face. SIGNATURE BROW DESIGN can create a lift without surgery to accentuate the brow and highlight your eyes.

Pump up the Polish

Modernize your manicure with new, neon nail lacquer, or a bright summertime color that is perfect for standing out from the crowd. Check out the summer colors at www.Essie.com.
