CURE FOR THE COMMON CHAOS!

Let's face it ... summertime equals *crazy* time, often leaving us looking and feeling frazzled! Take comfort knowing there is a cure. Relax in total tranquility, refreshing both your psyche and your face. Beginning with a complete skin care analysis, each facial is customized to your skin's specific needs. Whether it is excessive oil and acne from the heat and humidity, or dry and damaged from the golf course and the pool—or even a combination of the two—leading cosmetic physician Fiona Wright, MD has personally created each facial protocol for its superior quality and dramatic results. Thoroughly cleansed, toned and balanced, your face will visibly thank you for the time-out! *Aesthetic Institute of Plano, 5900 Coit Road, Suite B, Plano; 972.867.3223, www.fionawrightmd.com.*
